Widex A/S (continued)

- Customizing the Data Import/Export Framework to delivering data extracted from AX in sequence numbered files to cloud storage (Azure) for import to web-shop and running as batch jobs in AX.
 - Released products incl. translations
 - Pre-configured variants including translations
 - Customers
 - Trade agreements
 - Sales order history
- Importing sales orders from web-shop using AIF
- Developing web-services in AX to distribute (export/import) complete configuration models between AX environments
 - Including versions and price model criteria
- Using team developed C# class library to calculate configuration sales prices by calling the MS Solver library
- Creating sales order for externally (web-shop) configured items using AIF
- Importing data from external configuration software via C# class library and updating central product information in AX with configuration change history per device.

Hardi International A/S (Dynamics AX 2012) 2013 – Present

- Planning board view for maintaining the planned sequence of production orders, adding notes and displaying the current status of each order in the production flow by operation group and by kanban resource group
- Kanban order view for easier kanban order management
- Automatic scheduling of event kanban orders
- Inventory shortage view by kanban order and by planned or actual production order
- Sales order reservation view by customer and inventory location
- Updating kanban order BOM when moving the order in the plan
- Assembly sheet generation for production orders with BOM phantoms
- Integrating with third party shipment carrier system
- Blocking specific locations from reservations
- IC master planning corrections
- BOM level corrections making the master planning to work correctly
- Pickup time calculations for ex-works vendors

Lumbye IT-Service ApS

Søvang Alle 27, 1.th • DK-2770 Kastrup • Denmark Kulla 101 • SE-38293 Nybro • Sweden	Office: +46 (0)481 400 01 • Mobile: +45 40 34 35 05 Mail : blh@lumbye-it.dk • Web : www.lumbye-it.dk
-----------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Hardi International A/S - continued (Dynamics AX 2012) 2013 – Present

- Blocking violations of intercompany transport time
- Synchronizing master plan in IC customer company with shipping dates in IC vendor company
- Copy trade agreement purchase prices to cost price
- Batch calculation and activation of cost price for configured items through the IC chain
- Daily operations support

Hardi International A/S (BPCS / BaaN IV) 1998 – Present

- Migration of data from BPCS to BaaN IV
- Finance – document scanning and archiving, integration with systems for wages and salary, error handling, costing and transfer pricing.
- Manufacturing – Product configurator, kanban order system, hours accounting.
- Distribution and Inventory – Carrier interfacing with UPS, TNT and DHL, optimization of outbound picking sequence, delivery of configured product parts for later assembly.
- System integration – EDI between BaaN IV and AX 2012 used in the transition period from BaaN IV to AX 2012.

ASSA ABLOY Entrance Systems AB (BaaN IV) 2003 – Present

- Manufacturing – optimizing cutting sequence of profiles in variable lengths considering the available stock of base profiles and thereby minimizing the waste, interfacing with production equipment, e.g. saw for profiles and electronic configuration unit for door operators, optimized printing process for labels, picking list and assembly sheets.
- Distribution – Carrier interfacing with UPS, TNT, DHL and third party shipping system (EdiCom).

HAAS-Meincke A/S (BaaN IV) 2003 – Present

- Manufacturing – system for production tools management, optimized processing from planned orders to shop floor orders
- Distribution and Inventory – integration with automated storage units, optimization of inbound and outbound processes, integration with CAD systems for distribution of drawings with purchase orders by e-mail to suppliers.

-----------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Language Skills:

Fluent in English and Danish, both written and spoken.
Native language: Danish, secondary language: Swedish.

Education:

Business University
Copenhagen Business School (CBS)
Graduate Diploma in Business Administration (Financial and
Management Accounting)

Previous customers:

Martin Professional A/S (BaaN IV) 2002 – 2009

- Manufacturing – integration with automated storage and transport systems delivering parts to assembly lines and returning finished goods to stock
- Distribution – Carrier interfacing with UPS, consolidated sales order distribution for spare parts in DK, integrating with third party warehouse management system and Dynamics AX 4.0 (used in sales companies) when implementing central European spare part distribution center in NL, supplier quality management system.

Other customers 1994 – 2000

- Working as a partner within IBM's S/36 and AS/400 product line developing and implementing accounting systems with modules for general ledger, account receivables / payables, fixed assets incl. tax depreciation and trading of securities. Our main customers were minor local insurance companies in DK, one of which still is using our system today, and I'm delivering support from time to time. Another main customer was a Danish ferry company (Europa Linien A/S). Besides using our accounting system, I developed an integration to the sales terminal system on board the ferries, handling credit card transactions communicating with the credit card companies and financial transactions to be posted in the general ledger.

CURRICULUM VITAE

Bent Lumbye Hansen

Lumbye IT-Service ApS

Søvang Alle 27, 1.th • DK-2770 Kastrup • Denmark
Kulla 101 • SE-38293 Nybro • Sweden

Office: +46 (0)481 400 01 • Mobile: +45 40 34 35 05
Mail : blh@lumbye-it.dk • Web : www.lumbye-it.dk

Previous employment:

From 1978 to 1983 and from 1985 to 1990, I held the position as controller in three minor DK companies within the printing industry. In the two years 1984/85 I worked as a consultant with one of the first and largest pc dealers in DK, implementing and supporting some of the first pc accounting systems for our customers.

And finally from 1991 to 1994, I worked as a consultant within the IBM S/36 – AS/400 product line in a company owned by the person, who after that became my partner in my first years as independent/freelance consultant.
